

September 23, 2015 Day 1
Today we got are butterfly larvae.

I named them Dawn and Nick.

They are spicky and cueryes
and they are 1 centimeter
long. They are black evrywere.
They nap then they eat
and nap and eat and soon they
are fun to wach.

September 24, 2015 Day 2
Today I learned that Before
the caterpillar sheds its
skin to become a chrysalis
it begins to digest the old
caterpillar tissues. A caterpillar
sheds its skin 5 times.

Day 3

Today I learned that caterpillars and butter flies have a head, an abdomen and of course a thorax and legs. Caterpillars have 8 pairs of legs.

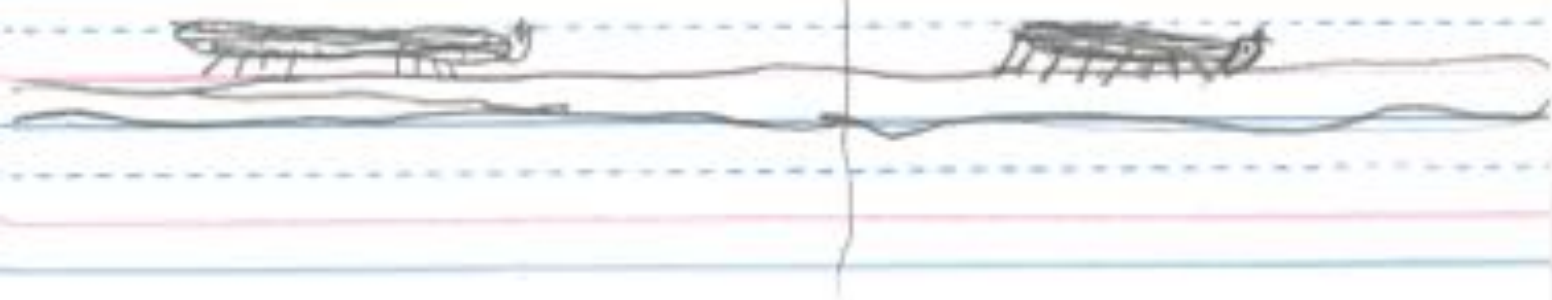

September 29, 2015 Day 7

My caterpillar is making something out of silk, and I think it's a crisalis. She has got bigger, and Nick has not got in his web, and Dawn has to.

October 1, 2015 Day 9
Dawn is trying to get to
the top but she is too long, and
the bottle is too short. Nick
is doing his own thing. There is
still web in there Mrs. Wachtel
told us that the web is not
the crisalis.

October 2, 2015 Day 10
Dawn is making a C shape
on the roof. Nick is a little
slow at catching up he is climbing
to the top slowly. They have
black gray and white. On
Monday Dawn will be a
butterfly or crisalis Nick will
be a caterpillar or a crisalis

October 5, 2015 Day 13

Dawn is almost finished

her pupa or chrysalis.

Nick has finished his and
will emerge in a week or so.

Painted Ladies
They are swallowtail butterflies
and they are so close to
butterflies.

October 13, 2015, Day 1
My butterflies have hatched Nick
has mixed up with the rest. Dawn
on the other hand it was trying
to walk all over another
crisalis the caterpillar that
He was in danger and shook
Dawn off she fell and
now she won't move from that
spot. Nick has come over to
comfort her.

October 16, 2015 Day 24

Yesterday we let all the butterflies go it was so sad to watch my butterflies go.

Dawn was trying to hang on to another crisals then it shok and she fell and would not move for a day it was so funny. On the inside they look like monarchs.
