

My

Butterfly

Journal

September 23, 2015

Day 1

Today my butterfly larva arrived. Her name is Owl that is her name. I'm going to tell some more information. I'm super that it is some little that's super me. I can't wait until it becomes a butterfly because we get to release them. My other butterfly's name is Angi that is her name. She is small to but I like them both of them both of them are

it. I'm glad that I can raise  
butterflies it is fun raise butterflies.  
It is day one so you do not know  
what else is going to happen.

That is the end of my story.

September 24, 2015

Day 2

Today I learned that it got a little bigger. A I learned that it is eating more. They have different life cycle.

September 25; 2015 Day 3

I learned that some of their parts are the same. I learned that the larvae fly to Mexico City when there are butterflies.

September 29, 2015 Day 7  
Over the weekend my caterpillar  
got bigger. It is like making a  
web thaning. And I have to  
tell you more. It is making a  
cristis.

October 1, 2015 Day 9

What I learned from Mrs.  
Wachtel is that the butterfly  
when it is making its crisis  
it takes a couple days like 7.

October 2, 2015 Day 10

One of my caterpillars are laying down and the name is siver.

Now I am going to tell you about my other caterpillar. that is chring to get to the top and her name is gold.

October 5, 2015 Day 13

My lava is in its chrysalis but is only one and I will tell you the name gold that is the name. I will tell you one more thing. My other one is not making a chrysalis and the name is silver.

October 13, 2015 Day 21  
Silver is a butterfly but Gold is  
It has a pupa. I am so glad  
because it is so cute. I hope  
that Gold cuts its pupa.
