

My
Butterfly
Journal

September 23, 2015

Day 1

My butterfly larvae Cheddar
arrived and my butterfly
larvae Cheese arrived. They were
so cute! My larvae Cheddar was
hanging on the lid. Also Cheese
was eating her food. She was
a cm long.

September 24, 2015 Day 2

Today I learned that larvae
will make their chrysalis very
soon. Also that it will take 4
days for it to be in its chrysalis.

September 25, 2015 Day 3
I learned that some butterflies
fly in the rocky mountains. I also
learned that moths are nocturnal.

September 29, 2015

Day 7

My caterpillar is growing very big and my other caterpillar grew a little. They are eating a lot.

October 2, 2015

Day 10

My caterpillars are eating a lot of food. Both of my caterpillars are on the top forming a j.

October 5th, 2015 Day 13

My larva made its pupa! My other one is almost making its pupa it is hanging upside down.

October

Day 21

One of my butterflies hatch! It looked
very pretty. The other pupa is about to hatch.
I am really excited to see it.

October 16, 2015

Day 24

I gotted to put a butterfly on my nose and finger! It was very fun!

Some pupas are not hatching but a lot hatched.
